

## **Appendix C:**

Due to the sensitive nature of cultural resources and the need to provide for their protection, availability of cultural resource surveys that specifically identify the locations of sensitive resources is restricted by both state and federal law. As such, public access to these surveys is limited to a need-to-know basis, and the cultural resources information for this project is not included in this appendix.

Persons associated with agencies or organizations with a legitimate need for this information are asked to contact the Project Archaeologist, Jennifer Sanka, at [jsanka@brandman.com](mailto:jsanka@brandman.com).
