Re: Communications Tower at Rancho Carrillo

Dear Mr. Garland,

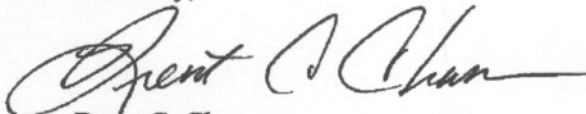

As we have discussed verbally and through email, the community of Rancho Carrillo does not support the construction of a communications tower anywhere within the areas controlled by our Association. The negative visual impacts of the proposed tower are not mitigatable and will drastically affect the rural character of our community.

This position has been reaffirmed through general community discussion, committee participation, and finally, a vote by the board of directors.

Further, the construction of a tower on any of the homeowner lots within the community is strictly forbidden by our Covenants, Conditions, and Restrictions. Any separate dealings between your group and individual members will be resisted by the Association by all the legal means at our disposal.

If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Brent C. Chase". The signature is fluid and cursive, with a long horizontal stroke at the end.

Brent C. Chase
President, Rancho Carrillo Community Association
