So much for review period.
I've got a tractor on up at the water tower clearing the closest degree of ugly possible. It's right on the edge. There are higher points, fewer houses and a better shot to the radio towers in Fallbrook on the other side of the water tank.

How do I voice a real complaint?
How do I get detailed information?
If I'm not getting the brunt of the tower Looming over my land, I'll be cool.
This is being put in to serve Riverside Co. Why should it be in Fallbrook?
I'm on the San Diego side. I'm thinking I need to speak to my Representatives?

Ro Elgas
