**Attachments:** TEXT.htm

Here is an email from a Rancho Carrillo homeowner who is extremely opposed to the project.  
Thanks,  
Vikki

Oposition to the PSEC Project -sites Rancho Carrillo B & E

Dear Ms. Mitchell,

I write to you to voice my strong opposition to the placement of communication towers in the Rancho Carrillo community. This is a unique community surrounded by wilderness. A tower at either of the proposed locations will devastate the beauty and serenity the families of this community have worked so hard to achieve. The negative impact to the quality of life and land values far outweighs the convenience of these location to the PSEC project.

100 to 150 foot communication towers, generators and fenced compounds belong in isolated areas as depicted in your photographs NOT NEXT TO OUR HOMES.

Towers within or near the Rancho Carrillo Community with severely impact our homes.

Dan & Linda Felix  
38340 Carrillo Road  
Rancho Carrillo
