Subject: FW: communications tower
Attachments: TEXT.htm

This homeowner has previously written in & it looks like Jon has called and spoken with him. This email came in on Friday, 3/28/08.

Thanks, Vikki

Subject: communications tower

I am wondering how you are going to mitigate the visual impact on the tower south of Lake Elsinore. I have the property that abuts the site to the north (APN 373054026) and I plan on build high end houses. I spoke with a gentleman from your office earlier this month, I believe his name was John. He informed my that the tower may be positioned more to the south next to the steeper side and further from my lot. Would you please give me a up date as to the progress. I would like to keep the impact to my future home owners to a minimum.

Thank you,
Joseph Wulff
