Subject: RE: Opposition to Microwave Tower Placement

Hi Jim-

We will send the canned email response from the EIR in-box, directing both property owners to the PSEC web site. Being that these concerns are more opposed to the construction of the tower and not really environmentally driven.

Per Vince, if you receive any phone calls relating to the PSEC project, please direct them to the PSEC web site <http://psec.co.riverside.ca.us> <<http://psec.co.riverside.ca.us/>>

This way they can send their comments via the EIR in-box and also, we may reply to them without having to give our work email address out. Please let me know if you have any questions, thank you for keeping us in the loop with these emails.

Another response pertaining to Brookside. This one is the sister of the earlier respondent, Jackie Wingler.

Subject: Opposition to Microwave Tower Placement

Dear Mr. Force:

As one of the owners of the 16 acre property located on the Northeast corner of Hannon Road and Brookside Ave I am opposed to the construction of the microwave tower being proposed. This unsightly large tower will have an adverse affect on our property value and its furture development potential. In the event that my plea will not change the construction of the tower, we respectfully request that a new location be considered.

Please consider placing it as far back as possible from the roadways. My family has owned our property for over fifty years and has had many dreams for it. We as a family are in the process of making development decisions and the issue of placing a tower across the street has been unsettling.

Respectfully yours,
Laurene Heredia, property owner
